(SPECIAL TO THE EVENING WORLD.)
GUTHRIE'S RACE TRACK, April 7.—The
excellent programme presented by the Hudson
County Jockey Club drew a very large crowd
of people to the hilltop track to-day. The track
was in perfect condition, and the feature of
the day, the handicap at a mile and a furlong,
was eagerly looked forward to. There were a
few favorites, including one of the crack
horses, but the crowd was a large one, with a
sprinkling of Gloucester sports, who bid fair to
become regular attendants here.

The first race was for beaten horses, and it
contained a number of good things. Landseer
was always favorite and was backed down
several points at the close. Sir Racer opened at
8 and was backed to 4, but afterwards receded to
6. The Emmet fly and Lima it were well
backed.

The winner turned up in Repeat, the out-
sider in the betting, who won after a sharp
contest with Lomax, another outsider.
Extra Dry was third.

Extra Dry and Tammany were the good things
in the second race and both were well backed.
The Ella Lakeland fly also had a host of sup-
porters.

The Amity colt, with Joe Flynn up, was
played by both McCormick's and Billy Daly's
owners and was heavily backed.

Aracel won in a walk from Pettit colt,
who lost the Maggie Duffy fly a head. Dixie
was the favorite for the third race, but
there were good odds against him, because
several of the others were well backed. Bervie
was well off, as was also Dixie-Qui, Extra
Dry and K. M. R.

The play on these animals kept the favorite
down. The race resulted in a real sur-
prise. Bervie, 30 to 1, and winning easily
while Blanche, a 100 to 1 shot, got the place;
Extra Dry was third.

For beaten horses; seven furlongs.
